Ask 3 Questions

Become more involved in decisions about your healthcare. You may be asked to make choices about your treatment. To begin with, try to make sure you get the answers to three key questions:

1. What are my options?
2. What are the positives and negatives of each option for me?
3. How do I get support to help me make a decision that is right for me?

How We Use Your Information

For details on how we collect, use, and store the information we hold about you, please see patient information leaflet, Ref. **Corp 006** How we use your information, this can be found on the Patient Information Leaflets page on the Trust website, see details on the front cover.

This leaflet is also available in audio, large print, braille, and other languages upon request.
For more information please ask in the department/ward.

What is Counselling?

Counselling is a talking therapy that involves a trained therapist listening to you and helping you to find ways to deal with any emotional issues you are experiencing and problems of living.

Sometimes the term "counselling" is used to refer to talking therapies in general, but counselling is also a type of therapy in its own right.

Who can access the service?

The counselling service is available to anyone aged 16 years and over, who is registered with a General Practitioner (GP) in the Wigan and Leigh area. You can self-refer to the service by contacting:
Community Patient Booking Line Telephone 0300 707 7700.

What to expect from counselling?

You will be encouraged to talk about your feelings and emotions with a trained therapist, who'll listen and support you without judging or criticising.

The therapist can help you gain a better understanding of your feelings and thought processes, and find your own solutions to problems, but they won't usually give advice or tell you what to do.

What will happen at my first appointment?

The counselling service offers an initial assessment by telephone or video call using NHS Attend Anywhere. Following this assessment if you feel that counselling will be helpful and you meet our eligibility criteria, you will be placed on a follow up waiting list until an appointment becomes available to start your counselling sessions. It is important to note that we are a short-term counselling service and offer up to seven follow-up sessions after your initial assessment. In some cases, your presenting issues may be more complex and will require longer term therapy than this service can offer.

If following your initial assessment, you do not meet the eligibility criteria for this service, you will be referred back to your GP or signposted to other services which would be more suitable for your presenting needs. If you require immediate crisis intervention, you may be referred to the Wigan Specialist Community Mental Health Team.

What can Counselling help with?

We can work with a wide range of presenting issues, such as:

- Mild to moderate depression
- Anxiety/Stress
- Complex/extended bereavement.
- Coping with chronic illness or significant injury
- Family/relationship issues

- Loss (employment, relationship, health)
- Personal Identity Issues.

How is the service offered?

The service operates on Monday to Friday from 9am with our latest appointment typically starting at 4pm, however we have a limited number of appointments, early morning, and late afternoon. You will be offered a choice of how you receive your counselling sessions, which will typically be either face to face at designated clinics across the Wigan and Leigh area or by telephone or video call.

Do you need to talk to someone right now?

If you're having more extreme thoughts and feelings or considering taking your own life, you should speak to someone as soon as possible. Depending on how severe your symptoms are, your options include:
